

NITHIN MATHEW CHINNABATTINI

Full-Stack Software Engineer

+1(312)804-7586 nithinmathew519@gmail.com linkedin.com/in/nithin-mathew-chinnabattini-97a3251b9 nithinmathew519.github.io/NithinMathew-Portfolio Chicago, IL

PROFESSIONAL SUMMARY

Highly skilled Full-Stack Software Engineer with Master's degree in Computer Science from Roosevelt University and 2+ years of professional experience. Proficient in Java, Python, JavaScript, Spring Boot, Angular, and Node.js. Expertise in designing scalable web applications, microservices architecture, cloud technologies (AWS), and security implementation. Proven track record of improving system performance by 25% and reducing API response times by 30% through optimized coding practices.

EDUCATION

Master of Science in Computer Science

Roosevelt University, Chicago, IL | Aug 2023 - May 2025 | GPA: 3.63/4.00

Bachelor of Technology in Computer Science

JNTU Hyderabad, Telangana | Jul 2017 - Mar 2022

KEY PROJECTS

INV Software Solutions - Corporate Website

Jul 2025 - Present

- Developed responsive Angular web application hosted on AWS S3 with CI/CD pipeline using GitHub Actions
- Configured AWS S3 for static website hosting with Angular client-side routing support
- Implemented secure deployment workflows with AWS IAM policies and access control best practices

N-Cart: E-commerce Platform

Nisum | Oct 2022 - Dec 2022

- Built order history and catalog modules using Angular, Spring Boot, MySQL with microservices architecture
- Improved performance by 25% and reduced API response time by 30% through optimized coding practices
- Integrated Elasticsearch reducing query latency by 35%

Scribe: Social Media Web App

Academic Project | May 2021 - Jun 2021

- Developed full-stack social platform using Angular, Node.js, and Firebase for real-time data management
- Implemented lazy loading achieving 50% faster page load times

TECHNICAL SKILLS

Programming Languages:

Java, Python, JavaScript, TypeScript, C++, C#

Frameworks & Libraries:

Spring Boot, Angular, React, Node.js

Databases:

MySQL, Oracle DB, MongoDB, Firebase

Cloud & DevOps:

AWS (S3, IAM), Docker, Kubernetes, Git, CI/CD, Jenkins

Tools & Technologies:

Elasticsearch, Kafka, Microservices, IBM Sterling OMS, RESTful APIs, SOAP, JUnit, Mockito

PROFESSIONAL EXPERIENCE

Software Engineer

INV Software Solutions LLC. | Jan 2024 - Present

- Design and develop secure web applications with robust access control, encryption protocols, and vulnerability scanning
- Engineer multi-threaded application components for concurrent client request processing and system optimization
- Configure AWS IAM policies for secure programmatic access and automated deployment workflows
- Optimize AWS S3 configurations for static website hosting with single-page application routing support
- Automate build and deployment pipelines using GitHub Actions, reducing manual intervention by 80%

Associate Software Engineer

Nisum Technologies | Aug 2022 - Dec 2023

- Designed Java and Spring Boot-based microservices for e-commerce functionalities with test-driven development
- Built RESTful APIs enhancing data exchange and improving legacy SOAP API integrations using JUnit and Mockito
- Optimized IBM Sterling OMS production systems, improving order processing efficiency and reducing error rates
- Analyzed XML-based production logs and collaborated with testing teams using JIRA for rapid issue resolution
- Participated in Agile/Scrum ceremonies and contributed to CI/CD pipelines using Jenkins and Postman

Software Development Intern

GVS India Private Limited | Jun 2019 - Jul 2019

- Developed web application modules using Angular and JavaScript with clean, efficient, documented code
- Prototyped shopping cart module improving coding efficiency by 25% and integrated into production
- Authored technical documentation reducing onboarding time by 10 hours and improving knowledge sharing
- Contributed to UI/UX enhancements and payment gateway integrations, reducing delivery timelines by 20%

Certifications & Achievements

- JPMorgan Chase Software Engineering Job Simulation (Forage) - 2025
- Wells Fargo Software Engineering Job Simulation (Forage) - 2025
- Deloitte Australia Technology Job Simulation (Forage) - 2025
- Global Generative AI Themed Hackathon participant at Nisum (2023)
- Multiple hackathon participations including T-hub Innovation Cell
- Ethical Hacking program at NIT Warangal (Technozion-2019)
- TCS NQT National Qualifier Test - 2021
